How the Battle Goes.

The provincial political campaign has not commenced to warm up very perceptibly as yet, but it is felt by the time that all the conventions come off, that a lively campaign will be on. The U. F. will hold its convention here, tomorrow.

It seems to be pretty well taken for granted that Conservatives do not intend putting up a candidate, unless those in the know are waiting until the particular stripe of the Farmer candidate to be nominated tomorrow, is discovered.

Mr George J Bryan, Liberal candidate, is taking time by the forelock, and has planned a vigorous campaign thru-out the entire constituency, including a rally in each school house, and not forgetting the newly acquired territory to the north of the old constituency boundary. He will be ably assisted by some prominent Liberals from the City, and also by some of the abler local speakers.

Notes of the Elections

At the meeting, Sat., 10th, of Spruce Grove U.F.A Local John Schumm and W A Ries were elected delegates to the convention on May 23d.

Some of the aspirants for tomorrow's U.F.A nomination have a beautifully optimistic idea that securing the nomination means being elected to the Legislature.

With four nominees to come before them tomorrow, the 23 U. F. delegates should have no trouble picking a candidate whom they think can win.

Political aspirants will note that Ruth Hanna McCormick says she spent \$15,654.59 for advertising, in her recent political campaign for a U.S. Senatorship. And of course Ruth won !

Advertising pays ! Of the four nominees at last week's convention in Stony, the one who advertises in the local paper was the one who received a plurality of the votes on the first ballot. You may have noticed this.

The provincial government is to investigate burial costs. It is understood this has nothing to do with the fate of gentlemen who may be buried beneath an avalanche of votes, says the Journal.

Mr D H Lent, the well-known educator and pioneer of the West, is still prosecuting a very vigorous campaign in the contest for the Stony Plain seat in the Legislature. He will shortly curtail his personal canvass of the electors and hold public meetings in the important centres.

The Sixth Alberta Legislature, just recently closed, served four sessions, and dealt with some of the greatest problems touched on since autonomy was granted the province in 1905. Among these were the sale of the provincially-owned railways to the C.P.R. and C. N. R., and the return of the natural resources.

A City paper on Tuesday reported a split in the U.F. ranks at Stony Plain. The alleged "split" appears to be merely an effort on the part of some voters to give a new man a chance at the candidacy.

The Farm For The Farm Boy?

Every once in a while some pullman car philosopher comes along with a few suggestions on how to remedy the evils with which agriculture is supposed to be afflicted, and frequently winds up with a peroration containing some gratuitous advice to "keep the boy on the farm."

All of which might be all right if the itinerant sologs were fully acquainted with the conditions of the country which he calmly surveys from the window, the conditions of the industry about which he descants so easily and freely, and the trend of the times, about which he may, or may not know anything. If, however, he were so well posted he would probably tell the newspaper reporters that he has "nothing to say on the subject today."

Now this question of "keeping the boy on the farm" is not a new one, and it has a good many angles to it, some of which are well worthy of a little reflection by the individual before he decides whether the boy should be kept on the farm, and if so, how to go about it.

The first question that naturally arises is: "Should the boy be kept on the farm?"

This query opens a great realm of speculative thought and examination long before the sequent answer: "How is it to be done?" can be satisfactorily dealt with.

It can be said at the outset, without fear of contradiction, that not all boys are fitted for life on the farm, physically or temperamentally, despite the fact that the farm affords an outlet for the expenditure of a wide range of talents. To try and bind such youths down to a life with the soil is akin to shipping a consignment of flannel vests and fur coats to the niggers of Equatorial Africa, and about as useful.

And what about agriculture itself? Does agriculture need, and can it offer suitable rewards and satisfaction to, all the boys who are born on the farms of Western Canada?

Here again is a question which has an important bearing on the problem of taking care of the future of the rural youth. Fifty years ago a single farmer could only raise enough produce to feed a handful of people. Today, with the use of highly mechanized and highly powered implements, one farmer can feed a host, and the trend in the direction of increasing the productive power of the individual in the realm of agriculture is neither recording a halt nor a swing in the other direction.

If science, combined with improved business management, is going to continue to widen the scope of the individual engaged in agricultural production, the time may come when a very considerable proportion of the lads reared on the land will have to look elsewhere for a vocation.

Then, even more than today, the question of determining the fitness, or otherwise, of the rural boy for bringing forth the fruits of the earth, will assume a greater importance. As has happened in other industries in the flux of time and change, those best adapted by nature and preparation to agriculture will be those who will stay with the industry, and they only. The others will find other fields more suited to their talents and inclinations.

If the foregoing diagnosis of the trend of the times is correct, it is very fortunate that the Western Canadian provinces have within their borders an infinite variety of resources awaiting the application of the initiative and courage bred in our youths, for their recovery and conversion to the services of mankind.

It is also fortunate that coincident with this tendency to reduce the man power on the farm, a marked development is taking place in industrial life in the west which, along with the development of the resources already referred to, will afford an ever widening outlet for the energies of young manhood.

Progress has always been marked by evolutionary changes of this kind. Usually they bring discomfort to some, but this is inevitable. It is useless to try to stem the forward march. The wise attitude is to try and discern what present day trends may bring in the future and take advantage of the opportunities they may afford.

These are questions which, no doubt, are receiving serious consideration by those responsible for the conduct of education in rural districts. The wise educationalist is not content with taking things as they are for granted, but is looking to the future and making adjustments which the necessity of tomorrow may dictate.

Can Supply Canada's Needs

An investigation made by the Canadian Government Department of Mines shows the sodium sulphate deposits in Saskatchewan containing over 100,000,000 tons of natural hydrous salt, enough to supply the Dominion's requirements and to furnish a surplus for export. One of the chief uses in Canada of this "salt cake" is in the production of sulphate or kraft pulp.

Stunts Planned For This Year

One Man Plans To Walk Across English Channel

It looks as if 1930 is going to distinguish itself as a year of amazing stunts.

Herewith are just a few of the things that carefree men and women are planning to do during the summer.

Fly an engineless glider across the Irish Sea from Holyhead to Dublin.

Walk across the English Channel on water boots.

Cross Niagara in a miniature submarine.

Walk blindfold around the top of one of the tallest buildings in Britain.

A young airman, Mr. Alec B. Trafford, of Birmingham, is to attempt the dangerous feat of flying a glider across the Irish Sea. He has already had considerable experience in glider-flying in Germany, and is now at work on the machine with which he intends to make his big attempt.

The man who is hoping to cross the channel on water boots is Mr. J. Hazard, who has invented an ingenious device consisting of a pair of ordinary shoes attached to the tops of two airtight bags, which he inflates with a bicycle pump. To help him in his 21-mile stroll across the waves he will use a pole attached to another inflated bag. He will obtain refreshment from a floating quick-lunch counter, to be established somewhere near mid-channel.—From Pearson's weekly.

CRYING BABIES ARE SICKLY BABIES

The well child does not cry — it is only the sickly baby who cries. The well child is laughing and happy. Baby's cry of distress is his way of telling his mother or nurse that he is ill. Therefore, if your baby cries do not delay in looking for the trouble.

Baby's Own Tablets are a safe and efficient remedy for childhood ailments. They are a mild but thorough laxative which through their action on the stomach and bowels banish constipation and indigestion; break up colds and simple fevers and promote healthful sleep. They will make baby happy and keep him happy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Preparing Eggs For Storage

The new egg-candling and egg-processing plant at the Pacific Coast Terminal, Limited, is now in operation, preparing eggs for storage and candling them at the rate of 500 cases per day.

For Scalds Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

In early Saxon marriages, the father of the bride delivered one of her shoes to the bridegroom who touched her head with it as a symbol of his authority.

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels, they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Mark Twain once said that there were two occasions in a man's life when he could not understand a woman—before he marries her and afterwards.

First-Aid

For all pains and aches, foot troubles, cuts and bruises, or general massaging purposes, Minard's simply can't be beat.

MINARD'S
"KING OF PAIN"
LINIMENT

The upsets of Children

All children are subject to little upsets. They come at unexpected times. They seem twice as serious in the dead of night. But there's one form of comfort on which a mother can always rely; good old Castoria. This pure vegetable preparation can't harm the tiniest infant. Yet mild as it is, it soothes a restless, fretful baby like nothing else. Its quick relief soon sees the youngster comfortable once more, back to sleep. Even an attack of

colic, or diarrhea, yields to the soothing influence of Castoria.

Keep Castoria in mind, and keep a bottle in the house—always. Give a few drops to any child whose tongue is coated, or whose breath is bad. Continue with Castoria until the child is grown! Every druggist has Castoria; the genuine has Chas. H. Fletcher's signature on the wrapper.

A New Motor Disease

"Driver's heel" is the latest disease. Rough roads, requiring constant working of pedals and controls, are responsible for this trouble, which can be very painful. Doctors with patients suffering from the new ailment are recommending that heel mats of some soft material should be provided by motor manufacturers, particularly for racing cars.

In Baltimore, Ohio, there is a monument to Adam.

Something New In Business

Renting overcoats has proved a successful business for a store at East Ham, London, England, during the recent chilly weather. The rate for use of the garments is the equivalent of four cents a day, and a small deposit is required. Many rent the garments for only one day.

The promissory note dates back to 2100 years before the birth of Christ and was invented by the Babylonians.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Foods Stay Fresh Longer This Way

Covered with Para-San Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-San in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

Progress Of Canada As Seen Through Eyes Of Writer In New York Times

Arthur Elliot Sproule, writing in the New York Times says: "True though it be that we are all undoubtedly getting more and more internationally minded, yet the job is so enormous that, for most of us, only the very biggest foreign events seem able to catch our attention—great things like the naval conference in London and the Soviet attitude toward religion, for example."

So true is this that—possibly because our mental eyes get a trifle out of focus by looking at distant objects—we are often startled to find how little we are seeing of events that lie under our very noses, as it were.

Take Canada, for example. What do most of us know of this great and growing nation that stretches at our very doors. Its progress fully merits the word "astounding," and yet few Americans know anything about it. For instance:

The port of Halifax has increased its tonnage by 40 per cent. in twelve months. The port of St. John, ranking after Montreal and Vancouver in the amount of traffic handled, but first among Canada's winter ports, has the largest dry dock in the world. Moving west, Quebec produces 85 per cent. of the world's supply of asbestos. Water-power projects are being successfully brought into operation, and other great and far-reaching changes have taken place.

Suppose you were asked to name the greatest port on the Atlantic Coast, after New York—would you immediately answer "Montreal"? Yet it is a fact that the harbor of Montreal, 1,000 miles from the sea, is the second port on the North American Continent, New York only being greater. At Sault Ste. Marie the canals carry more traffic than the Suez, Panama and Manchester Ship canals combined.

Winnipeg, the centre of the wheat country, has taken on added importance as the head of a new mineral area, and it may well be that in the future the mineral products of the Province of Manitoba will vie for supremacy with the Province's enormous grain resources.

Further west again, Turner Valley, Alberta, has drawn the attention of the world to its potentialities as an oil producer.

On the Pacific Coast, Canada possesses vast wealth, notably in her lumber resources, and there are vast gold mines in the mountains.

Passing to world trade, observe that Canada leads all other nations in the production of newsprint, nickel, asbestos and cobalt. She takes second place in the production of wheat and automobiles, and third place in the output of lead and gold. As an exporter she stands sixth among the nations of the world.

According to recently issued trade statistics for the year 1929, Canada holds fifth place in aggregate import and export trade, second place in export and total trade per capita, third place in favorable trade balance, and second place in favorable trade balance per capita.

There is no need to be wearisome, but it is surely well to face even a few salient facts such as the foregoing. We have quite a neighbor up north!

Wonder will this reformed calendar they're talking about, be so good that a fellow won't get his tax bill just when he's saved up enough money to have the house painted?

"Is your dog of pure breed?" Wine Merchant: "Of course. Do you think I have poured water into him?"—Pages Gales, Yverdon.

W. N. U. 1938

Colorado Grain Growers Coming To Exhibition

Will Be Well Represented When 1932 Show Opens

The growers of San Luis Valley, Colorado, U.S.A., will be well represented at the World's Grain Exhibition, at Regina, 1932, according to reported activities of the Farm Bureau Federation. Among other plans for the improvement of crops the bureau will give special attention to weed control, the securing of pure seed and the "preparation of a valley-wide exhibit at the World's Seed Show, Regina, Canada, in 1932."

The States of Montana will also be represented according to a letter received at exhibition headquarters from A. H. Stafford, commissioner, Department of Agriculture, Mr. Stafford says, "It is the plan of this department to prepare and exhibit grain at your conference in 1932. Will you kindly forward to us at this time detailed instructions as to the requirements for establishing such relations with you."

Preparing To Ship Fish By Airplane

Commercial Air Lines Around Great Lakes Will Speed Up Transportation

Other than flying fish will soon take to the air in changing their habitat from the Great Lakes to American cities.

Commercial air lines around the Great Lakes, both in Canada and the United States, are preparing to transport whitefish, pickerel and other edible varieties of fish, from the shores of the Great Lakes to the railroad for quick shipment.

It is said that the movement of fish from inland lakes to railway contact by air has been successfully and economically accomplished in other localities and since the greatest industry of the great northwest is fishing, this outcome is anticipated.

Huge Bridge Nearing Completion

The bridge over the harbor at Sydney, Australia, is nearing completion. The structure, costing \$20,000,000, has a span of 1,650 feet, and accommodates a roadway 57 feet wide, four electric tracks and two ten-foot footways. It is estimated that changes in temperature will cause a maximum expansion of 14 inches. The bridge is the world's largest of its type.

"There, now," said the suburbanite to his wife, "you've ordered seeds that take two years to bloom."

"Well, that's where you're all wrong," she said. "This is last year's catalogue."

(By Eva A. Tingey)

PRETTY HOUSEWEAR

All Tingey models are created in Paris and sketched by her there. The patterns are made and adapted for American women in New York by American patternmakers.

Fashion seldom weavers in her affection for spots. They have so fresh and trim an effect. They are chic, too, and add an air of charm to the simplest of models.

White spots on a blue ground were chosen for this attractive housewreck. The trims were white. The neck line merging into two front pieces on the bodice has a very slimming effect, which is helped still further by the point on the skirt. Slight shaping of the lower skirt section gives grace and free movement.

Other schemes besides spots could, of course, be used for this model. Plaids, checks, stripes and flowered patterns with contrasting trims would all be good. Almost all standard washing cottons are suitable. Washing silks and rayons can also be used.

This pattern may be obtained in sizes 16 to 20 and 34 to 42. It is ready for immediate delivery. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Foreman—"Well, everything all right?"

Night Watchman—"Yes, I have not done so bad for the first night. I've checked everything off, and there's only one thing missing—the steam roller."

Canadian Forest Growth Could Be Stimulated By Scientific Management

Convenience In the Poultry House Work Should Be Made As Easy As Possible

When building a poultry house it is a matter of importance to see to it that it is not only located at a point easy to reach, but also that it shall be so arranged that the work of attending to the birds be made as easy as possible. The more convenient it is to do the work about the poultry house the surer it is that it will be done.

As the women of the farm usually look after the poultry, the work should be made as easy as possible. If the distance to be covered in going back and forth to the poultry house is twice as far as it need be the amount of extra walking thus involved may have the effect of adding drudgery to the task. The new bulletin No. 132, of the Department of Agriculture, at Ottawa, "Poultry House Construction," goes fully into the question of planning, and makes the observation that not only should the house be accessible, but the internal arrangement ought to be such that the work may be done with the least amount of labor. Among other suggested conveniences is the gate that swings both ways. The feeder may be carrying two pails of water or feed, a gate that swings either way may be opened without stopping to set down the pails. A barrow load of gravel, or the laying of a plank will enable one to pass over a wet place dry-shod.

Another recommendation is the providing of a feed box in which supplies may be kept close to where they are needed. In poultry keeping, as in other farm work, labor is an important item, and in the building and equipping of a poultry house every consideration should be given to means that may be taken to reduce labor.

Land In Good Shape

Irrigated Area In Southern Alberta In Fine Condition

Irrigation carried out during 1929 was the biggest in the history of Southern Alberta, and as a consequence the land is in fine condition now, according to F. J. Jennings, supervisor of irrigation in the Calgary district office of the Dominion Water Power and Reclamation Branch. "Without exception, all the large irrigation projects in Southern Alberta used large quantities of water last fall," he said, "and in consequence their irrigated lands were in good condition this spring."

"The spelling books of fifty years ago were the best," writes an old-timer to the Toronto Globe. "The young folks of today don't know how to spell."

An estimate of the total forest production of Canada for 1928 has just been completed by the forest products branch of the Dominion Bureau of Statistics. The estimate includes all the products of operations in the woods, the unmanufactured materials cut in Canadian forests during the year.

An estimate has also been made of the extent to which the forests are being depleted annually in the process of exploiting these materials. For this purpose converting factors based on actual measurements have been used. Each of these factors represents in cubic feet the quantity of standing timber that must be cut in the forest in order to produce one unit of the material in question, based on the total cubic contents of the trees. By the use of these factors it has been estimated that the total forest production of 1928 involved the cutting of 2,988,038,430 cubic feet of standing timber. This constitutes only the annual depletion for use and to it must be added the volume of material annually destroyed by fire, which exceeds 900,000,000 cubic feet of merchantable timber and young growth on 1,300,000 acres. Insects and dry rot destroy annually at least 800,000,000 cubic feet to the annual drain on the forest resources of considerably more than 4,788,000,000 cubic feet.

A total depletion of 4,788,000,000 cubic feet per annum does not necessarily imply that the total resources are reduced by that amount every year and the supply will therefore be exhausted in forty-seven years. Estimating the probable duration of supply of forest products is not a matter of simple arithmetic. The rate of utilization is far from constant. It tends to increase with the discovery of new uses for wood, the increase in population and the increase in the demand for forest products from other countries whose supplies have been reduced to a greater extent than Canada's.

On the other hand, there is a steady increase in volume taking place in all healthy stands of timber due to annual growth. By the application of scientific forest management this annual growth can be stimulated. It would be made to take place over the entire area of potential forest land, it is believed.

Filling Large Order

Vancouver Lumber Mills Working Overtime To Produce Shingles

Lumber mills in Vancouver are working night and day on the production of 400,000 giant red cedar shingles to cover the 151,000 square feet of roof on the Log Lodge Hotel at Lucerne-in-Quebec. The order, placed by the Lucerne-in-Quebec Community Association, Limited, with Alexander Murray Limited of Montreal, is said to be the largest single purchase of hand split shingles in the history of the lumber industry.

Feed As They Go

Many of the birds that migrate by day travel slowly and feed as they go along. The cliff swallow is said to average twenty-five miles a day for the first twenty days of its two thousand, five hundred mile flight from winter to summer home, and increases this to sixty miles a day at the end of the journey, doubtless feeding to a greater extent during the early stages of the trip.

"The doctor told me that people either die of my complaint or become idiots." "Doctors don't always know. You have not died."—Pages Gales, Yverdon.

PRESS DELEGATES FROM "DOWN UNDER"

Members of the New Zealand delegation to the fourth Imperial Press Conference, to be held in London, England, in June, are shown photographed in Victoria, B.C., with members of the City Council, who tendered an official welcome to them. In the centre of the front row is Mayor Anson, who officiated at the civic luncheon in honor of the visitors, who were also entertained to dinner by the Government of British Columbia, with Premier Tolmie presiding. The New Zealanders are crossing Canada by Canadian Pacific lines and will sail from Montreal on the "Duchess of Bedford," on May 18.

24 Hours Ends COLDS

You can send the soothing vapor of the pine woods, to the cause of your cold by inhaling Catarrhazone.

Little drops of healing balsams are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhazone works in bronchitis, catarrh, colds and irritable throat. You simply breathe its healing, fragrant vapor, and every trace of congestion and disease flees as before fire.

Catarrhazone A Ten-Minute Relief!

No trace of the disease remains after Catarrhazone is used—no more matter to clog the nostrils—no more headache and buzzing ears. Two months' treatment (guaranteed) price \$1.00; smaller size, 50c, at all dealers.

WORLD HAPPENINGS BRIEFLY TOLD

Sale of the Crown jewels of the Ottoman empire, valued at \$300,000, was forecast to raise money to relieve Turkey's financial crisis.

A movement is under way to make the Watertown, N.Y., airport an official port of entry for Canada. All present pilots must fly to Malone to obtain clearance papers.

All school uniforms throughout China must hereafter be made of native cloth in order to encourage home industry, according to a circular order of the Ministry of Education.

A protocol putting into effect the Young Plan has been signed at the French foreign office by Premier Briand, and the foreign ministers of Great Britain, Italy and Belgium.

Captain C. D. Barnard, pilot of the plane in which the Duchess of Bedford flew to Capetown, South Africa, and return, is planning to fly around the world in 30 days.

The Montreal Star says on good authority that a representative British, Canadian and United States group is negotiating to purchase Labrador for \$100,000,000. The proposal will be submitted shortly.

An order-in-council issued by the Department of Agriculture, under the authority of the animal contagious diseases act, prohibits the importation into Canada of parrots, parakeets, cockatoos, macaws, lorries, and love birds.

Installation of radio-beacons to facilitate night flying is expected at Forest, Manitoba; Regina, Saskatchewan; Morse and Bassano, Alberta, according to an announcement made by Inspector D. E. Fox, of the Civil Aviation branch. With the installation of these beacons night flying under all weather conditions will be possible.

Five Powers Sign Reparations Plan

Commission Disappears and World Bank Will Soon Be in Action

The Young plan for payment of reparations, reducing Germany's obligations for damages caused during the world war from something like \$25,000,000,000 to about \$9,000,000,000, has gone into effect.

A protocol registering the decision of The Hague conference, which adopted the plan January 12, was signed by the ambassadors of Great Britain, France, Belgium, Italy and the French Minister of Foreign Affairs, after a tea served by the French Foreign Minister, Aristide Briand.

The first consequence of this act, which modifies for a second time the reparations machinery provided by the Versailles treaty, will be the disappearance of the reparations commission which, in co-operation with other bodies, has taken charge of payments under the Dawes plan.

The second will be the beginning of functioning by the bank for international settlement at Basel, Switzerland.

The third will be the issuance of \$300,000,000 in reparations bonds, two-thirds of that going to creditor nations and the other third to Germany for internal requirements.

PALPITATION

Throbbing of Heart After the "Flu"

Mrs. J. Cunningham, Sault Ste. Marie, Ont., writes:—"Last February I had a severe attack of influenza which left me with palpitation and throbbing of the heart."

"I felt very weak and tired so began to take

and used about six boxes and have found them help me a great deal, and am very thankful for having found such a good medicine."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Business Is Growing

Deep-sea arrivals at the Port of New Westminster during March numbered 23 vessels compared with 17 in March, 1929. During the first three months of the year 60 deep-sea vessels with a gross tonnage of 343,453 registered inwards at New Westminster compared with 48 vessels of a gross tonnage of 266,017 during the similar quarter of 1929.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisitely in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

Poultry Going To England

A trio of Brandon birds, having high egg production records, have been shipped to Ottawa to be trained and fitted for upholding Manitoba's reputation for high production poultry at the Crystal Palace, Sydneyham, England, when the fourth world's poultry congress assembles poultry leaders from all parts of the world next July.

Heal the Sprain with Minard's.

Vancouver Port Busy

Commercial shipping entering the Port of Vancouver during March showed marked activity, the net tonnage being about 1 million. The movement showed 1,900 arrivals with a tonnage of 966,238. Deep sea arrivals totalled 106, with a net tonnage of 403,856.

For a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

At a rough estimate the animals in the London Zoo represent a total value of about \$175,000, the Indian rhinoceros being one of the most valuable, costing more than \$5,000.

SUNDAY SCHOOL LESSON

MAY 25

JESUS DESCRIBES THE FUTURE OF THE KINGDOM

Golden Text: "Take ye heed, watch and pray: for ye know not when the time is."—Mark 13:33.

Lesson: Matthew 24: 1 to 26:13.

Devotional Reading: Isaiah 66:1-3, 6-8.

Explanations and Comments

The Parable of the Wise and Foolish Virgins, 25:1-13.—The Kingdom of Heaven likened to ten virgins who went forth with their lamps to meet the bridegroom. Five were wise (prudent), and carried oil in their oil vessels, but five were foolish (imprudent), and took no extra supply of oil.

While the bridegroom tarried they all slept. There is no hint of reproach in this statement: the bridegroom might tarry a long time. Midnight came, and the approach of the bridegroom was announced. All the virgins arose and trimmed their lamps preparatory to going forth to meet him. The foolish ones then found their lamps were going out, and begged the wise ones to share with them their oil. But the wise virgins refused lest there might not be enough for them all, and counselled them to go out and buy oil.

While the foolish virgins went forth to buy their oil the bridegroom came; those that were ready went in with him to the marriage feast, and the door was shut.

A little later the foolish virgins arrived and begged to have the door opened. "Verily I say unto you, I know you not," was the only answer they received.

Watch, therefore, for ye know not the day nor the hour. Be not found unprepared. "It is not enough to have a lively zeal for a while; we must have, in addition, a perseverance that never tires."—Calvin.

Two Tested Recipes

For Salad Dressings

Now that salads are the order of the day, really good recipes for salad dressings will be welcomed. A salad is often made or marred by the piquancy of the dressing used, so that tested recipes are very desirable. Since some prefer an uncooked dressing and others a cooked dressing, we give two recipes, both of which we know will please.

SALAD DRESSING (Uncooked)

Two eggs beaten until light; ¼ teaspoon salt; ½ teaspoon mustard; ½ can Eagle Brand Condensed Milk; ¼ cup vinegar. Beat the first four ingredients vigorously for a few minutes add the vinegar, stir well and set aside for a few hours to thicken. Excellent for fruit or vegetable salad. Will keep for weeks. For Russian dressing add Chilli sauce to taste.

SALAD DRESSING (Cooked)

Half a tablespoon salt; 1 teaspoon mustard; 1 tablespoon flour; ¼ cup Eagle Brand Condensed Milk; ½ cup water; ¼ cup vinegar; 1 egg. Mix dry ingredients, add slightly beaten egg, butter, milk, water and vinegar. Cook until thickened. Strain and cool. Whipped Borden's St. Charles Evaporated Milk, or cream, may be added before serving if desired. Yield, 1 cupful.

Could Hardly Live For Asthma, writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

She—"Now that we're engaged, dear, you'll give me a ring, won't you?"

He—"Yes, certainly, darling. Er—what's your number?"

Campers Carry Minard's.

"Did your girl friend enjoy the art exhibit?"

"No, she couldn't find a mirror in the whole gallery."

Why suffer needlessly? Douglas' Egyptian Liniment brings quick, sure relief to sore feet, soft corns and warts. Relieves inflammation. Removes proud flesh.

A Growing Industry

Production From Inland Fisheries In Manitoba Shows Great Gain

While agriculture, the basic industry of Manitoba, together with manufacturing, mining, and other industries has advanced substantially in the province in recent years, the production from the inland fisheries has probably shown the greatest gain. In the past five years the fisheries production has increased more than 100 per cent. In 1924 the market value of the fish caught in Lake Winnipeg, Manitoba, Winnipegosis and other lakes was \$1,232,000, while last year it was \$2,634,000. In 1929 the commercial fishermen of the province caught 33,000,000 pounds of fish, a record for Manitoba, with a market value of \$2,634,000.

PEOPLE "ALL NERVES"

What To Do If You Find Yourself In This Condition

The sort of thing that specialists call nervous debility is the run-down condition caused by over-work and household worries. The sufferers themselves tired, low-spirited and unable to keep their mind on anything. Any sudden noise startles and sets the heart palpitating violently. They cannot sleep well at night; their hands tremble and legs seem unable to support them. Such a condition is indeed pitiable.

Doctors of the nerves with sedatives is a terrible mistake. The only real nerve tonic is a supply of good red blood. Therefore the treatment for nervousness and run-down health is Dr. Williams' Pink Pills, which promptly build up and enliven the blood. The revived appetite, the strengthened nerves, improved spirits and new strength which come after a course of these pills will deny every sufferer.

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"If, as you admit, you were three miles away digging potatoes when this man was arrested for speeding, how can you testify that the car was going at the most only 20 miles an hour?"

"Judge, Ah used to own that car!"

Use Children's for Burns.

Children of London recently attended a lecture on the home life of ancient Egypt and were shown balls and rattles which amused Egyptian babies of 2000 B.C.

Summer COLDS

Almost everybody knows how Aspirin tablets break up a cold—but why not prevent it? Take a tablet or two when you first feel the cold coming on. Spare yourself the discomfort of a summer cold. Read the proven directions in every package for headaches, pain, etc.

A Lucky Catch

Sentry Receives \$20,000 For Saving Life of Prince At Belgrade

One of King's Alexander's gigantic guardsmen recently was given an indefinite leave of absence after receiving a reward of 100,000 dinars (nearly \$20,000), for having quite inadvertently saved the life of the 2-year-old Prince Tomislav, the second son of the King.

The Prince was playing in the apartments of his mother, Queen Marie, on the second floor of the palace, at Belgrade, when suddenly he fell from a window. The sentry, who was passing at the moment, received the full weight of the child on his shoulders. The Prince caught the sentry around the neck and slid to the ground unhurt, but the burly guardsman was knocked unconscious and crumpled to the ground.

To go forward is important; to go straight is more important.

OPEN SORES

The NEW IVORY

Fireproof Wallboard

SENATE AGREES ON RESOURCES BILLS FOR WEST

Ottawa, Ont.—It is not the intention of the government to proceed with the financial reconstruction of the Canadian National Railways this year, Hon. T. A. Crerar, Minister of Railways, told the parliamentary committee which examined the estimates of the National system here. The government had proposed to introduce a bill dealing with the amalgamation of the various constituent companies, but no progress having been made previous to the Easter recess, it was doubtful if that bill would now be dealt with in view of the approaching dissolution of parliament.

"I frankly confess," said Mr. Crerar, "that, assuming my duties as Minister of Railways in February, I haven't been able to get a clear idea of what is involved beyond the fact that it is a tremendous task."

"I doubt if the amalgamation will now be proceeded with, but it should be done next session."

Sir Henry Thornton, president of the C.N.R., informed the committee that as far as the railway was concerned all the investigations had been made in connection with the financial reconstruction and the company's recommendations were ready. Mr. Crerar, however, had had no opportunity to enquire into what was an exceedingly complicated problem. The situation now was one of simply determining what the government wanted to do. The executives of the C.N.R. had submitted their recommendations this year.

The problem of financial reconstruction had been under intensive study for the past six years and he did not suppose that any more complicated task had ever been undertaken on account of the large number of records, mortgages, securities of different terms and rates of interest. These had all been finally catalogued and straightened out. It was now at the pleasure of the government and the will of parliament. The company itself was prepared to go ahead with the matter.

The re-financing scheme did not involve the disturbance of existing issues.

Indian Flier Reaches England

Croydon, England.—The Parsee Indian flier, R. D. Tata, arrived by aeroplane alone from India, after a nine-day flight in an attempt to win a prize of 500 pounds sterling offered by the Aga Khan for the first solo flight by an Indian from India to England. The flight was made by other contestants were 17 and 23 days, respectively.

Pay Tribute To Explorer

Oslo, Norway.—Norway recently paid official tribute to Dr. Fridtjof Nansen, whose sudden death occurred May 13. The Storting, or legislature, held an extraordinary meeting at which President Hambro voiced the country's praise of the great explorer and humanitarian. The Storting's offer to pay the explorer's funeral costs was accepted by the Nansen family.

Chinese Stage Battle

Winnipeg Is Scene Of Riot Between Oriental Factions

Winnipeg, Man.—Axes and baseball bats were wielded in Winnipeg's Chinatown as two Oriental factions clashed in riotous street warfare. Three Chinese were so seriously injured that they were taken to hospital, while numerous others were being attended at their homes. Seven Orientals are under arrest.

Rioting broke out shortly after midnight with two-score members of opposing political factions milling in the fray which began when two Orientals engaged in combat. From stores and residences in the surrounding area, within a block or two of the city hall, poured Chinese armed with axes, sticks and baseball bats. Several were knocked unconscious in the mob-clash.

Police arrived while the riot was in full swing and the battlers dissolved within a few moments, leaving injured men on the road and in the gutter. Fleeing combatants were arrested and the more gravely hurt were hurried to hospital. Condition of the three wounded men was reported as showing improvement.

Papers Resent Action Of Scotland Yard

Protest Against Method Employed In Reference To Leakage Of News

London, England.—In connection with the probe into the leakage of news from government sources connected with the arrest of Gandhi in India, the Newspaper Owners' Association has raised its powerful voice against certain sections of the Official Secrets Act of 1920, under which the detectives secured their warrants to invade the home and question the newspapermen. The association has adopted a resolution regretting the government action and calling it unjustified interference of a journalist who collected his news by a legitimate and open method. The resolution expressed concern for the freedom of the press and demands amendment of the act in the public interest. A copy of the resolution was forwarded to Prime Minister Ramsay MacDonald.

Aviation Valuable To Canada

More Development Is Urged By Dr. W. R. Boyle

Saskatoon.—That Canada will gain more by the development of the aeroplane and radio than any other country in the world, was the statement issued by Dr. W. R. Boyle, principal of the physical science division of the new national research laboratories at Ottawa.

He emphasized the value of the aeroplane and radio in bringing together certain parts of our country, which with its wide stretches of unoccupied territory would remain isolated and inaccessible without the aid of these two developments of science. Dr. Boyle said that particular attention was being paid to aeronautics at the research department at Ottawa.

Will Holiday In Europe

Successful Western Farmers Going Back For Short Time

Toronto, Ont.—Fifty-five farmers, mostly from Alberta, and made up of Ukrainians, Poles and Central Europeans, have arrived here on their way to Europe. Travelling in ten automobiles, men, women and children, some of the latter barely remembering the land of their birth, are going back for a holiday tour after successfully establishing themselves on the land in Canada.

Starting from Edmonton, the party motored over a route carrying them through parts of the United States then crossing again.

For Scott Centenary

London, England.—An appeal to Scotsmen throughout the world to subscribe five thousand pounds sterling (nearly \$25,000), towards a suitable and dignified way of commemorating the centenary on September 21, 1932, of Sir Walter Scott, the great novelist, has been issued by the Duke of Buccleuch, president of the centenary committee.

NEW HIGH COMMISSIONER

Hon. Vincent Massey, envoy to Washington, who has been named to succeed the late P. C. Larkin, as high commissioner for Canada in London.

Workers' Bill For Debate

Measure Has Been Refused To House Of Commons

Ottawa, Ont.—A measure respecting employment of Canadian workmen on Dominion Government contracts was referred in the House of Commons to the committee on industrial and international relations. The sponsor of the bill, Dr. J. J. E. Guerin, (Liberal, St. Ann), informed the House that the measure was of serious interest to labor, especially in the City of Montreal. In brief, the purpose of the bill, he proceeded, was to provide that there should be no age limit in respect to Canadian workmen seeking employment on government contracts.

Would Not Use Old Law

Paris, France.—With a view to making France unhealthy for loafers and petty criminals, a bill has been introduced in the chamber which invokes a law of 1885 to the extent of imposing the choice between expulsion and permanent confinement at hard labor for any person who, having already spent at least six months in prison, shall have been convicted a second time.

Postmasters Organize

Kamloops, B.C.—Dominion-wide organization of postmasters was completed here when the convention of British Columbia postmasters decided to join the other provinces. W. A. Wylie, of Kamloops, was appointed temporary chairman of the provincial branch.

HER MAJESTY THE QUEEN AND HER GRANDDAUGHTER

Queen Mary and the members of the royal family have been once again brought strikingly into the spotlight of public esteem by the biography of her majesty by Charlotte Greenwood recently published in London. Photographs above of her majesty and Princess Elizabeth, granddaughter of the Queen, are by Marcus Adams, of London, England, and are reproduced here through courtesy of Toronto members of the Photographers of America.

Survey Of Natural Resources In B.C.

Information Is Being Sought On Peace River Block

Victoria, B.C.—Under an agreement between the British Columbia government and the Canadian government, the Canadian National Railways and the Canadian Pacific Railway, announced by Premier S. F. Tolmie, a systematic natural resources survey of the Peace River Block will be launched almost immediately and carried on all summer.

The survey organization under Major C. R. Crysdale, which conducted the Pacific Great Eastern Railway survey of last summer, will handle the Peace River block investigation also.

The government and the two railways will share the cost of the work jointly as before.

"We need this information on the Peace River block before we can intelligently deal with the future of this great area of about 3,000,000 acres," the premier announced.

Britain Has Refused Demands Of Arabs

Delegates From Palestine Told Proposals Were Unacceptable

London, England.—The British colonial office issued a statement declaring that the demands of the Palestine Arab delegation, which has been in London discussing the future of their fellow-countrymen, for constitutional changes were "wholly unacceptable."

At the same time the Arab delegation, which recently declared it had reached a deadlock in the negotiations, announced it would leave for Palestine on May 23.

The colonial office statement said the government had taken note of the Arab demands but had told the delegation its proposals could not be accepted "since they render it impossible for His Majesty's government to carry out their obligations under the mandate."

Fine Pedigreed Stock

Winnipeg, Man.—Considered by Professor W. L. Carlyle, manager of the Prince of Wales ranch at High River, Alberta, "the finest shipment ever brought to Canada, 70 head of pedigree stock moved through Winnipeg recently over Canadian Pacific lines. His Honor, Lieutenant-Governor J. D. McGregor, and many others interested visited the through freight to look over the livestock."

RECONSTRUCTION OF C.N.R. WILL BE POSTPONED

Ottawa, Ont.—Without a division and with very little debate the Senate gave three readings each to the bill restoring the natural resources of Manitoba, Saskatchewan and Alberta to those provinces. They previously had been passed through the House of Commons as government measures.

Hon. N. A. Belcourt, acting government leader, in supporting the bills, said the provinces had been dealt with generously and fairly. It had been the government's desire to grant the provinces as wide power as possible and he was impressed with the spirit that animated the proceedings leading to the agreements.

Hon. W. B. Willoughby, Conservative leader, said the natural resources had been an acute question in the west for years, but he believed it had been settled satisfactorily. He referred to the fact that Alberta and Saskatchewan had been given the right to appeal to the courts on constitutional issues. The Manitoba Act, he pointed out, had been passed on by the Privy Council, but neither of the others had been interpreted judicially.

Hon. A. B. Gillis reviewed the past history of the natural resources question in the west. Withholding of the resources under the 1905 incorporations had been disastrous to the provinces, and the present settlement was a complete justification of the stand taken by Sir Frederick Haultain when premier of the Northwest Territories. The provinces, he said, had been forced into direct taxation, and Saskatchewan alone now has a debt of \$70,000,000. If the resources had been given to the province in 1905, the sale of land would have offset the present debt.

Will Hold Opium Conference

League Of Nations Council To Meet In December

Geneva, Switzerland.—Measures for strengthening the forces fighting the illicit opium traffic by calling up help from the "victim" countries were taken by the council of the League of Nations.

The council tentatively set December 1 for holding an international opium conference at which the chief matter for consideration will be a proposal to limit the world manufacture of narcotics to the world's medical and scientific needs.

To Broadcast Story

Montreal.—The complete story of the approach of the R-100 to Canadian shores, her passage overland to Montreal and her attachment to the mooring mast at St. Hubert airport, as well as the reception ceremonies, will be simultaneously broadcast by 20 cities in Canada.

Stony Plain and District

And this is **SPORTS WEEK**! The popular outdoor sport in Stony at present appears to be impounding your neighbor's cow.

Mr A. E. Michael paid Edson a visit this week.

Mr J. Christie returned on Saturday from a four-day business trip to Calgary.

Moose Hall was comfortably filled Sat. night, at the regular dance, with Barth's orchestra playing the dance tunes. The Sat. Evg. 8 to 12 dances will continue.

Several local radios which had been left connected were put out of commission by Tuesday's electric storm.

A dance will be held at Muir Lake Community Hall Wed. June 4th. An Edmonton orchestra will be in attendance.

The young people on the R. Hubbel farm got a scare on Saturday, when three bears marched close to the place. As the Bruins were not molested, their visit proved a harmless one.

Saturday's rainstorm was welcome in the district six miles from Stony, where a ground fire has been running for some time. Early Saturday the fire came in on St. 22-53-1 and burned two buildings.

Calendar.

- MAY—
23—U.F. Nominating Convention for Stony Plain Constituency.
24—Dance at Moose Hall.
24—Grand Opening at Edmonton Beach.
27—Dekan Grotto Concert Co., in Moose Hall.
29—Walther League Rally JUNE—
9—Nominating Day, for Provincial legislators.
19—Election Day.

Church Services.

Services in St. Philip's Church next Sunday, 11.30 a.m.
United Church service every Sunday Evg. at 7.30.

Holborn Happenings.

While breakfast was being cooked, about 8 o'clock on Tuesday morning, fire was discovered in the home of Mr Frank Maier, a short distance west of the Holborn schoolhouse. There was no telephone at the house, and before assistance could be procured, the building burned to the ground, with the contents. Mr Maier is crippled somewhat in the limbs, and could be of little assistance in saving any of the contents of the house.

Quite an interest is being taken by the local politicians in the outcome of the convention to be held in Stony tomorrow, and hopes are entertained that one from this district will be picked to carry the U.F. banner to victory.

Spruce Grove News

Mr H. Christensen, former manager of the Home elevator here, paid the Grove a motor visit Friday afternoon.

Mr E. Pinchbeck has purchased a new Plymouth sedan.

Mr Morrow has installed an electric Kelvinator for use in the ice cream section of his cafe.

Mesdames Sherwin, Elder, Brabbins, Connolly spent a very pleasant afternoon at the tennis courts in Stony, on the 14th inst.

Mr and Mrs H. Schellenberger Sr. were Sunday visitors with Mr and Mrs J. Brox.

Spruce Grove Juniors beat Stony Juniors at baseball last week; the Grovers winning by 15 to 6.

Members of the local United Ladies Aid were present at a social tea, held at the home of Mrs Wight, Stony Plain, given under the auspices of Stony Plain's L.A.

Mr and Mrs Baker, Fort Saskatchewan, were Sunday visitors at the Sherwin home.

Father Keganan, who is now on a visit to his old home town in Ontario, is expected back here early in June.

Spruce Grove Municipality has a lawsuit on its hands. Mr F. Conroy, a City realtor, lost his auto by fire last fall while traveling over a road in the Municipality. His car dropped into an 18 inch hole, he claims, while crossing a muskeg.

Male residents in the district six miles north of the Grove were out on Friday, when the high wind was on, fighting bush fires, which have been rather prevalent around there for some time.

In spite of the almost total eclipse last week of the Grove's Leading Politician, another local trusting soul steps into the breach and will present himself at tomorrow's convention. He is said to have the eastern section of the constituency solid behind him.

A good sized crowd of farmers and others were present on Friday last at the demonstration given on the farm of Louie Javorsky of the new Lanz 15 30 tractor. The work done by it proved satisfactory to the power farmers present, the good performance in the rooty breaking proving quite a surprise.

The Rockies Are Calling You

The combination of the extremes of natural and sophisticated at Banff Springs Hotel and Chateau Lake Louise, which open May 15 and June 1, respectively, until September 30, is perhaps the secret of their charm. Located in the heart of the finest scenery of the continent—mountain, lake and forest—each offers to the visitor everything that the most ritzy hotel in the most cosmopolitan cities of the world can furnish. You may cut dancing to look through huge windows at slices of billion-dollar scenery or you may attire yourself to please yourself and go out for days on horseback into territory virtually untouched by the

white man and all within a few miles of either hotel. You may live plainly but well on food packed into the wilds by horse or you may dine on exotic dainties drawn from the ends of the earth. You may be strictly formal or you may wander around in plus fours—everything goes, whether you are admiring the moonlight on snow-crowned peaks or listening at your ease to a cosmopolitan dance orchestra playing the latest hits. Anyone visiting either of these hotels has laid in a memory that will last a lifetime. Lay-out shows, left view from Chateau Lake Louise; lower right, the Banff Springs Hotel.

Carvel Clippings

The funeral took place Friday last of David Seward (son of Mr and Mrs Sydney E Seward of Carvel) who had passed away in a City hospital, in his 6th year.

Quite a large delegation went down on Tuesday last, to be present at the trial of Bill Pawlow, who was before Magistrate Williams, on a charge laid under the G.L.C. Act. When the trial ended, Bill is said to have gone East on a trip.

The road gang which is graveling the Baseline moved here Tuesday.

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you! J. F. CLARKE, Drugist.

To the Electors of Stony Plain Constituency :

I have decided to offer my services as a candidate on the Farmers' Platform at the ensuing elections.

I came into the district thirty years ago, as a Missionary Teacher on Wabamun Indian Reserve. After a difference with the authorities, I removed to a homestead beside the Reserve, and have made it my home ever since, while teaching in various places. Last year I quit teaching, but not my interest in public affairs.

I first endeavored to unite with the Farmers' Union while teaching at Youngstown, Alta., 12 years ago, but was refused because I was not getting my living from my farm, altho owning it. Afterward, on my removal to Manitoba, I was at once accepted there. On my return home I was accepted as a member-at-large, there being no local here.

I promise to do my utmost to preserve the public resources as a Provincial Asset, and not to let them fall into private hands.

All local matters to which my attention may be drawn shall be discussed at a public meeting of the electors.

I shall endeavor to secure local testing of eggs, to avoid the cost of shipping to Edmonton and return.

My whole time will be given to public affairs. I especially appeal for support as one who represents clean politics.

Very truly yours,

D. H. Lent.

Duffield, May 5, 1930.

Here and There

(517)

With a prepared acreage greater by 31 per cent. than that of 1929, a better moisture situation and other indications presenting general good conditions for the year, the Canadian West is now busy seeding, according to the latest report of the agricultural department of the Canadian Pacific Railway.

Nearly \$28,000,000 was voted by the Ontario Legislature recently for hydro-electric development work to be undertaken this year in the province for the Ontario Hydro-Electric Commission; a provincial government organization. Over \$18,000,000 is to be spent on the extension of the Niagara hydro system, upon which many millions have already been spent to provide cheap electric power over a wide area of rural and urban territory.

"There is a very large amount of capital in England ready for investment and it is felt in that country that it should go to Canada," said Major L. A. Jones, economic editor of the London Morning Post, who landed recently at Saint John from S.S. Duchesne of Algonquin on a trip to Canada for the purpose of fostering better economic relations between the Dominion and the Motherland.

Four new game refuges adding 500 square miles to the existent 640 square miles of game sanctuaries in New Brunswick are to be established in that province for the purpose of preservation of the game supply, according to information given out by Hon. Charles D. Richards, Minister of Lands and Mines.

Fish caught by commercial fishermen in Canadian waters last year had a value of about \$55,000,000. Over 100 countries bought fish and fish products from the Dominion in 1929, valued at \$38,000,000. More than 80,000 persons find employment in Canada in the fishing industry.

The wild rose is now the floral emblem of the province of Alberta. The provincial parliament has enacted the legislation making this flower which grows so profusely all over Alberta, the provincial symbol. Choice of the emblem was put up to the school children of Alberta and the wild rose captured most votes, with the tiger lily next in favor.

Homestead entries taken out through the Dominion Land Office at Edmonton during the month of March last broke all records for that month with a total of 277 homesteads and 19 soldier grants which compares with 266 homesteads in March, 1928, the previous record March.

Contrary to the general impression, Canadian investments in the United States are, per capita, than American investments in the Dominion. An official statement just issued shows that the average Canadian has \$100 invested in the United States and the average American about \$20 invested in Canada.

Something more than appearance will be necessary for grain to win a prize at the World's Grain Exhibition and Conference to be held at Regina, July 25 August 6, 1932. All entries getting into the prize money at this exhibition will be expected to be in demand for seed. It is because of the importance of the effect of the distribution of this prize seed to farmers in Canada and throughout the world that the Awards Committee has decided that the usual judging standards will be supplemented by a growing test which in reality is the test supreme.

Reduction in Prices of RED ROSE TEA

Effective Immediately

10c. per pound reduction on Green Label
Black Tea.

5c. per pound reduction on All Other
Grades.

Higher Markets for finest quality TEAS, which
are scarce, preclude greater reduction.

All Grocers are authorized to sell their present
stock at these reductions. We refund to the

CHAPTER XXII.—Continued

"Oh, Grandma! You might have
made him angry."

"Not Gam Garfield. He likes to
make believe he's stern, but he's real
good-natured underneath. He laugh-
ed. I guess he forgot he was a lawyer
with an important case. And then he
sat right down where you are, child,
and said: 'It's you who ought to be
spanked, Grandma Davis. You charged
my client ten dollars for a string
o' beads that's worth about ten
cents.'"

"Ten dollars!" gasped Charman.
"What an idea! But you did charge
too much, Grandma, and—"

"I never heard there was a law to
keep a body from getting as much as
he could in a trade," interrupted the
old lady. "I said as much to Gam,

READ OF A CASE LIKE HER OWN

Decided to take Lydia E.
Pinkham's Vegetable
Compound

Moncton, New Brunswick—"Before
my last baby was born I was very weak,
nervous and dis-
couraged. I saw
an advertisement
in the paper about
a woman who had
been like me so I
bought a bottle of
Lydia E. Pinkham's
Vegetable Compound. I took
three bottles and
it carried me safely
through that
critical time. I
have three children to care for and I
feel well and strong. I have told two
other women about your medicine."
— Mrs. GUS ASHBAULT, 22 Albert Street,
Moncton, New Brunswick.

W. N. U. 1888

and he had to admit that the law
was on my side—considering. And I
told him, too, that if Edgar Purdie
said he paid ten dollars for those
beads, why he was a liar on top of
all his other sins. I was real indig-
nant."

Troubled though she was, Char-
man couldn't suppress a laugh at the
picture Grandma's words brought up.
"I guess he saw I was kind of
riled," went on the old lady, "be-
cause he said, 'Don't you worry,
Grandma. I won't let you get into
any trouble if I have to commit
perjury myself to prevent it; but
what did the deacon pay for those
beads?'"

"Did you tell him?" asked Char-
man breathlessly.

"I did; but not till I'd asked if
he was making a social call or one
in the interest of his client. He
grinned and said, 'You ought to
have been a lawyer yourself, Grand-
ma Davis; but I'm just dropping in
to pass the time o' day with an old
friend.' So I told him the whole
story, Charman. Honestly, child, I
thought he'd have hysterics. There
wasn't a shred of dignified lawyer
left in him when I got through."

"But what's he going to do?"

"It don't make a mite o' differ-
ence to me what he does, so long as
we're not dragged in; and we won't
be, or I don't know Gam. He said,
confidentially, that he thought when
the deacon cooled off a little, and he
pointed out the big expense of a law
suit, that it would all be settled out
of court. Just now Edgar's mad
clear through. He says Lunelle's the
only woman he ever proposed to that
refused him, and claims that she led
him on something scandalous."

"Well, dearie, maybe you'd better
get us some dinner. It's been an
exciting morning and I feel all gone.
On top of everything else there was
a fearful cat fight in Lizzie Baker's
yard. I could hear the yowls as loud
as if they were in this room. They'd
be at it now if George K. Knowles
hadn't come along and turned Lis-
sie's nose on 'em. And there are
folks who say that nothing happens
in Wickfield!"

Charman laughed as she went to-
ward the kitchen, glad there was
some excitement on hand to keep
Grandma from asking too many
questions about her ride with Jim;
but as they were finishing their
meal the old lady queried suddenly:
"Did you enjoy your ride? And did

you get my catalogue from Emmy?"
"Oh, dear!" cried Charman, "I
left it in the car."

"It's no great matter," responded
Grandma comfortably. "If Jimmy
finds it he'll bring it 'round to-night.
Like as not he'll be glad of an ex-
cuse to come. Did Emmy say what
she was ordering?"

"A hat," smiled Charman. She's
not going to be outdone by Clara
Darling."

"Do tell!" ejaculated Grandma.
"Did she show you the picture,
dearie? There were some awful
pretty hats on page fifteen. What
color will it be? Green doesn't go
well with most of Emmy's things."

Charman laughed.
"It's possible, you know, to buy
some other color, even by mail. I
didn't see the picture, Grandma. It
was Jim who went in, and Emmy
asked his advice about it."

"Then he can show me which one
it is when he brings the catalogue.
Emmy's not liable to be extravagant,
but it does seem risky getting a hat
clear from Chicago. It might get
mashed in the mail, and then where'd
she be? Maybe that's Jimmy now.
There's an auto stopping. If 'tis,
you call him in, dearie, so he can
show me—"

"That you, Jim?" called Char-
man, half rising as the front door
opened. "Come in a moment.
Grandma wants you."

Jim, who had eaten hastily and
was on his way back to the bank,
obeyed willingly enough. He had
the bulky catalogue under his arm,
and though he smiled at Grandma,
his eyes shifted to Charman, as if
to discover if she looked more cheer-
ful than when he left her.

"You sit down," commanded
Grandma. "I guess George K. can
run the bank without you for ten
minutes. Draw up a chair. I want
you should show me the hat that
Emmy Bascomb's been fool enough
to order without first seeing the
quality."

"Good thunder!" objected Jim,
"this book is three hundred and fifty
pages thick! How'm I to find—"

"The hats begin on page fifteen,"
broke in Grandma. "They look real
pretty in the pictures; but I've never
seen but one mail order hat, and
except for making a good deal of com-
motion around town—"

"Grandma," Charman interrupted
sternly, "I've got a notion that Jim
is sick and tired of hearing about

that hat. Let him alone. He's got
a right to admire a green hat if he
wants to. The truth is, I liked it
myself!"

"You did!" gasped Grandma, as-
tonished; while Jimmy laughed, the
first real laugh of the day—for him.
For a moment his eyes met Char-
man's, with their old twinkle, then
returned to the book, and he said
dubiously:

"It must be this one. I remember
it kind of hung down one side, and
had a red rose on the other."

"Read what it says, sonny. I
haven't got my glasses."

Jim obeyed, reading with mock
solemnity: "A dressey model with
soft, girlish lines that you will sim-
ply adore. The trim is of two colors
of dainty lace-patterned straw. Col-
ors: black with a red rose; meadow
pink with sand; goblin blue with
crab apple. Price only one-fifty-nine.
Shipping weight two pounds." That
sounds pretty swell, Grandma,
doesn't it? Emmy was hovering be-
tween the black with the red rose,
and the blue with the crab apples or
carrots. I gave her a shove toward
the blue, and ran, or she'd still be
asking my assistance. Now I must
skip, or George K. will think I've
abandoned with his interest money."

Again his eyes sought Charman's,
but at the mention of interest, her
face hardened, and she turned away.
A moment later the whirr of an en-
gine told her that Jim had gone, and
Grandma said, lifting her eyes from
the gayly colored page: "Seems as
if that hat would be a little wide in
the brim for Emmy; but you never
can tell about a hat until you try it
on. I think she's running a terrible
risk, though they do say, 'money re-
funded if not satisfactory.' Still,
they might make a fuss if she sent it
back. Business men are hard-hearted
to deal with—that is, some of 'em
are, though Father always said there
were exceptions."

"I'd like to find one," then, said
Charman; but Grandma, still absor-
bed in Emmy's purchase, didn't no-
tice the sudden bitterness in the girl's
voice.

CHAPTER XIV.

It was with a very genuine glow
of happiness that Charman learned
that the school board had given her
"District Four." Some years had
passed since she graduated from the
State Normal School—years when it
seemed best for her to stay with
Grandma; but as it became increas-
ingly difficult to meet expenses and
keep the old house in repair, the girl
realized that something must be

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly
blotches on the face, eyes with yellow
tinges and that tired, old feeling? This
indicates a torpid liver. Headache, Dis-
tress and Biliousness surely follow. You
must stimulate your lazy liver, start the
bile flowing with Carter's Little Liver Pills.
They also act as a mild laxative,
purely vegetable, free from calomel
and poisonous drugs, small, easy to
swallow, and not habit forming. They
are not a purgative that cramps or
pains, unpleasant after effect follow-
ing on the contrary gives great relief.
All Druggists 25c and 75c per pkg.

done, and to get the school only a
mile from her own door was a vast
relief.

(To Be Continued.)

A Brave Little Traveller

Little Joan Baxter recently ap-
peared on the White Star liner "Alber-
tic," bound for Halifax, with the fol-
lowing label attached to her coat:
"My age is 3 years. My mother is
dead, and I am going out to my dad-
dy in Saskatoon. I am travelling
alone, so please be good to me."

"So Skinny Shamed In Bathing Suit, Gained 15 Lbs."

"Gained 15 lbs. tak-
ing Ironized Yeast.
Was always ashamed to wear
bathing suit but now I
can and not feel too
skinny." — Ethel Lan-
gman.

Thousands write of 5 to 15 lbs.
gained in 3 weeks with Ironized
Yeast. Bony limbs round out. Ugly
hollows fill in. Bleached skin gets
clear and rosy like magic. Nervous-
ness, indigestion, constipation dis-
appear overnight. Sound sleep. New
health and pep from very first day.

Two great tonics in one — special
weight-building Malt Yeast and
strengthening Iron. Pleasant little
tablets. Far stronger than immedi-
ately yeast. Results in 1 1/2 time.
So quit being ashamed of "skin-
nyness," swallow skin. Get Ironized
Yeast from druggist today. Feel
great tomorrow. Money back from
manufacturer if not delighted with
quick results.

A composer has written a song for
pedestrians. But it will be a long
time before composers nowadays can
hope to excel Chopin's famous fune-
ral piece.

Clover Leaf Rolls made with ROYAL YEAST CAKES are a Delightful Change

Try this recipe:

1 Royal Yeast Cake dis-
solved in one-half cup
lukewarm water.
1 teaspoon salt

1 tablespoon sugar
11 cups flour
11 cups scalded milk
1 cup butter

Four the scalded milk over the sugar, salt and butter. When cooled to lukewarm add the dissolved yeast and one and one-half cups flour. Allow to stand well covered in moderately warm place over night, or, if sponge is set in morning, let stand until light. Add flour enough to knead. Let rise again until double in bulk, then cut down and knead slightly. Butter muffin tins and place three small balls of dough in each ring. Let rise until double in bulk, brush over with melted butter and bake in hot oven.

Bread is one of the most nourishing
of foods. It can be made more
interesting, however, by occasionally
varying the form of serving it.

If you bake at home, the Royal Yeast Cake Book will provide
you with many practical tested recipes for all kinds of home-
made breads. It will be mailed—free—on request.

Stony Plain Local held an other meeting Sat. in Royal Parlor, for the purpose of adding measures for increasing the membership, with the ultimate object of augmenting the delegation to Friday's convention from two to four. The membership committee reported progress, but it is likely the Local will be represented by but 2 delegates. Director Glen Story's letters, read at former meetings, were re-read and discussed, the object being to find the constitutional authority for the delegation ratio which is being enforced at the present time. The matter was made clear by Mr Pitzler, who stated that the whole affair was regulated by the officials of the Constituency Political Association.

27—Walther League at Comet Garden Valley at Stony

Town of Stony Plain.

NOTICE IS HEREBY GIVEN that the Town Council have decided to strictly enforce the Town Bylaw concerning cattle and horses running at large. Many complaints have come to their attention of cattle destroying merchandise left in rips.

Anyone having cows would do well to obtain a permit from the Secretary of the town to tether out their cows on property in the Town; otherwise they are breaking the Bylaw.

JAS. MALLOCH,
Secretary-Treasurer.

Sale of Inga Lands for Taxes

Secretary Pidgeon, on behalf of Inga M.D., held a sale of lands in arrears of taxes at the town hall on Saturday last. This sale was more successful than any held heretofore, owing to the fact the Municipality enforced its reserve bid rights. Suffice to say there were no ten-dollar farms on sale Saturday, the lowest going at over ten times that amount. There was keen competition for some of the quarters of land, among these being the two quarters in 53 l.

Following is a partial list:
SE 34 51 3—Mr Wagner of Measlin, \$110
N half 36 52 3—Reserved by the Municipality
NE 32 53 3, near Alberta Beach—no bid
NE 20 53 3—no bid
NE 27 51 3—P Wagner \$110
SW 35 51 3—Mrs Cora Atkins, for \$101
NW 21 53 2—Gilbert Stebbins, \$75
SW 28 53 2—A F Schooley \$101
SW 34 50 1—Reserved by Municipality for gravel pit
SW 32 50 1—J A Duval \$175
N half 36 50 2—L Berry \$335
SW 18 51 2—Jean Facette \$115
NE 18 51 2—no bid
SE 22 53 1—Geo. Miller \$270
NW 32 53 1—F S Mills \$210

Duffield Doings.

Duffield Women's Institute holds its regular monthly meet Tuesday next, the 27th. On the program will be a paper "Why I am Glad to be a Canadian." Report on Canadianization and national events by Mrs G D Taylor. Roll call: My one superstition. The hostesses will be Mrs Clements, Mrs M OSullivan, Mrs G O'Sullivan.

Mr Wm Webster, of this district, was in attendance at the funeral yesterday in Edmonton of his father William Webster, who had passed away there, aged 67 years.

Several parties from this district attended the tax sale in Stony on Saturday, and some bargains were secured. The Duffield baseball aggregation went to Stony on Sunday and got trimmed. The feature of the game was a homerun made by a Stoneite who on his return to the home plate was politely informed by the Ump. that he'd run on a foul.

Hansen's Corners.

Mr Godfrey, who is farming the Harold Sterling place at Brightbank, left Monday for Medicine Hat, to stay the summer.

Mr Walter Corinne had the misfortune to lose 1700 logs by fire, last week.

The account of the McDonald birthday party appears to have been slightly exaggerated. The cake was only two stories high, and there weren't over 60 candles on it.

Edmonton Beach.

Edmonton Beach is making preparations for the coming season, and considerable improvements are being made.

Miss Weir and Miss Moor will operate the Beach tea room, which opens tomorrow.

Campers are coming out every week end and opening up their cottages for the season.

The Collie Cottage will be one of the artistic type, as Frank Adamson is the decorator.

Mr Barrie expects this year to be one of the best in the history of the Beach. He has sold 5 lots already and is making every preparation regarding amusements to entertain the public to the very best possible.

Here and There

Twenty-two days will be occupied by the annual tour across Canada to be conducted by Dean Soudier, Laird, of Altonbad College, when his party leaves the Windsor Street Station, Montreal, by special train over Canadian Pacific lines on Sunday, July 20. This year will be the seventh trip conducted by Dean Laird and, as in past years, will include automobile drives over the famous Hamilton-Windermere highway and from Field, via the Xoux Valley, to Lake Louise, as well as steamer trips across the Kootenay Lake to Nelson; from Vancouver to Victoria; and on the Great Lakes steamships from Port William to Port Maitland.

Spring seeding in the west is proceeding at a rapid pace, according to report at the end of April from the agricultural department of the Canadian Pacific Railway at Winnipeg. Taking the three prairie provinces as a whole it was then estimated that 41 per cent. of wheat seeding is completed, with some districts in south-eastern Alberta reporting between 60 and 65 per cent. finished. Heavy showers have somewhat retarded progress in north-western Saskatchewan.

Twelve representatives of the New Zealand press are present travelling through Canada via Canadian Pacific on their way to the Imperial Conference to be held in London, Eng., next June. The members of this party with their wives and children have been visiting Banff and Lake Louise in the Canadian Rockies.

Contracts are let and gradina has been started on three additional branch lines of the Canadian Pacific Railway covering 145 miles in Saskatchewan and Alberta. It is announced by the company's engineering department. These new sections of railroad will provide facilities for passengers and freight into one of the richest agricultural areas now under settlement and will give encouragement to farmers already settled in the areas affected.

With 1,955,200 pounds more fish landed in Nova Scotia during March, 1930, as compared with the same month of the previous year, fishermen of the province received a total of \$385,384 for their catch according to the monthly report of the fisheries branch of the Department of Marine and Fisheries. Total quantity landed in March was 9,473,000 pounds.

The new Montreal Harbor Bridge, a two-mile span across the St. Lawrence River, built at a cost of \$12,000,000, will be formally opened on Victoria Day by Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada. This bridge, work on which was commenced five years ago, is one of the longest and largest in the world.

Marquis wheat still constitutes more than one-half of the western grain crop. This is shown by the test samples taken from 48 car-cases of Canadian wheat exported to England in 1929-30 and reported by the Dominion Department of Agriculture. The tests were made at the Dominion Experimental Farm at Brandon from samples collected by the Canadian Co-operative Wheat Producers at export ports.
